San Jose, Costa Rica

Dear David

I wanted to thank you again for your very kind hospitality at Punto de Vista. All I can say is WOW! They say that beauty is all in the details – that being true, Punto de Vista is GORGEOUS! You have a true gem, the crown jewel of villas in Costa Rica and you have every reason to be proud of the amazing feat of architecture fused with seamless design you've created.

I'm constantly searching for unique locations for my clients and Punto de Vista is now at the top of my list! The view, the accommodations, the location - all fabulous. But what really impresses is the attention to detail in building a space that really works for events.

An event at a private residence is always much more work for my crew, as the infrastructure is always lacking. However, the inclusion of an elevator, two sets of public restrooms, ramps for physically challenged guests, the spectacular roof top deck, the industrial-sized kitchen, the main floor lounge/disco with the DJ 'booth' up stairs – you really thought this out from an event planner's point of view and I thank you. My job just became a lot easier!

Congratulations again on creating the most 'wedding friendly' villa in Costa Rica!
Looking forward to many incredible events at your luxurious space.

Best Wishes,

Larissa Banting
